CONFERENCE OVERVIEW

The Canadian Academy of Health Sciences (CAHS) annually hosts a Forum designed to address specific challenges to the health care of Canadians. The series, now in its 13th year, focuses on important and emerging new areas of health sciences research and/or practice that have a direct impact on the quality of life of Canadians. Past Forums have helped set the stage for further investigation and assessment of challenges and opportunities within Canadian health care.

This event will bring CAHS Fellows from across the country together with experts in the field. It will provide an unparalleled opportunity to showcase your programs, products, services and innovations to these leaders of key regional and national markets.

CAHS Fellows are world-renowned leaders and innovators who have a history of outstanding performance in the academic health sciences in Canada. The Forum is an opportunity to provide insight and drive change and improvement for the health of Canadians.
